

Crime Levels (Main Story)

There have been significant reductions in crime in Bracknell Forest last year and, since April this year, all crime is down by a further 5% and continues to fall. Especially pleasing is the 28% reduction in burglary and 10% reduction in criminal damage. Levels of anti-social behaviour reported to the police and the borough council also continue to fall. It is still important to continue to reassure people that the community is becoming safer.
